Version V 1.1

SCREEN READER ACCESS:

The InstaVote website (<https://instavote.linkintime.co.in>) is designed, developed, owned & operated by MUFG Intime India Private Limited (Formerly Link Intime India Private Limited). The website complies with World Wide Web Consortium (W3C) Web Content Accessibility Guidelines (WCAG) 2.0 level A. This will enable people with visual impairments access the website using Assistive Technologies, such as screen readers.

Screen readers are software programs that allow blind or visually impaired users to read the text that is displayed on the computer screen with a speech synthesizer or braille display. A screen reader is the interface between the computer's operating system, its applications, and the user.

Following table lists the information about the screen readers:

Screen Reader	Website	Free / Commercial
Narrator (Windows)	https://support.microsoft.com/en-us/windows/complete-guide-to-narrator-e4397a0d-ef4f-b386-d8ae-c172f109bdb1 Note: Narrator is an inbuilt system software which is readily available with Microsoft windows operating system. There is no need to download the application externally. For more information click on the above-mentioned link.	Free

NOTE: This website mentioned above is an external link and MUFG Intime India Private Limited (Formerly Link Intime India Private Limited) has no control over the content of this site and do not take responsibility for the same.

Narrator is a screen reader in Microsoft Windows, providing a measure to access to Windows without the need to install additional software as long as the computer has speakers.

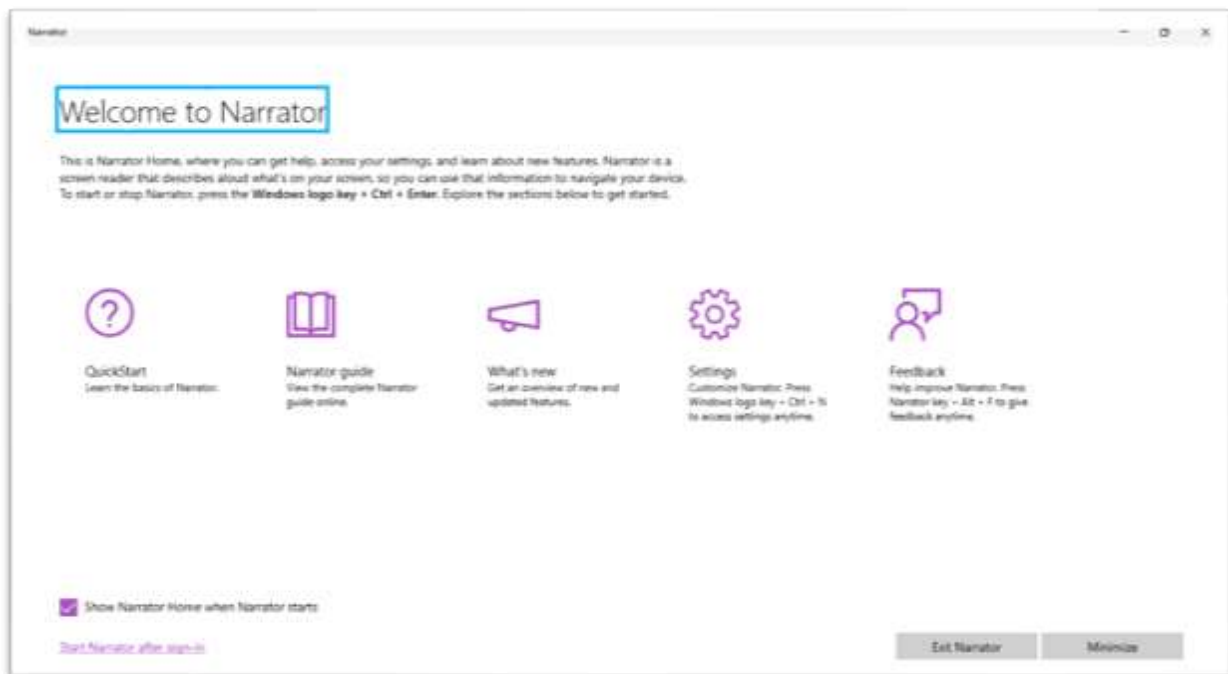

Narrator Application – Requirements:

Details	Description
Developers	Microsoft
Initial Release	February 17, 2000
Operating System	Windows 2000 and later
Platform	IA-32, x86-64, ARM64
Type	Screen reader

Two ways to start and stop Narrator:

- Press the **Windows logo key + Ctrl + Enter** together to start Narrator. Press these keys again to stop Narrator. (On older versions of Windows, the command was the **Windows logo key + Enter**.) On many keyboards, the Windows logo key is located on the bottom row of keys, to the left or right of the Alt key.
- Press the **Windows logo key + Ctrl + N** to open Narrator settings and then turn on the toggle under **Use Narrator**.
